

Hurricane Helene Response

Join the Bucket Brigade

Peaks,

We have heard your heartbreak and concern about the impacts of Hurricane Helene and your wish to assist in some way. Discussions have already been underway as to what ways we can best respond as a presbytery. The recovery will be a marathon, not a sprint, and we want to be sure our response is appropriate to the needs of those in the disaster area and that they do not impede efforts already underway or burden those who already have so much on their plates. Presbyterian Disaster Assistance's (PDA) Team is on the ground in Western North Carolina assessing the situation and needs.

What we do know is that Cleanup Kits are in demand so we are having a

CLEANUP Bucket Drive!!

Church collections through October 11th
Pickup from churches on October 12th

After looking most of the week, we have finally located a drop off point. A tractor trailer will be leaving Winston-Salem and we must get buckets there by October 13th.

Here is the link for bucket information.

[Buckets](#)

If your church would be interested in being a drop off location and/or putting together buckets and/or delivering to Winston-Salem, please email julie@peakspresbytery.org.

Continue to lift up in prayer our brothers and sisters impacted by Hurricane Helene in Florida, Georgia, South Carolina, North Carolina, Tennessee and Virginia.
